

Derek Forgie

Derek Forgie is an actor, activist and comedian but not necessarily in that order. As an activist, he founded the HSSE: www.straightnotnarrow.ca. He has also made his accessible take on big issues like climate change known to the masses. He has been recognized by the World Wildlife Fund as a valuable voice for the cause. Some of his comedy accolades include: *Madly Off in All Directions* and *Last Comic Standing*.

However, during the day, he finds himself in front of the live audience for MTV Live where he warms-up the crowd.
