SAFE SCHOOLS

Statement of Policy

The Peel District School Board is committed to providing and maintaining safe and healthy environments conducive to learning and working for all. The Board recognizes that encouraging and respectful environments help students to achieve to the best of their ability. To improve student success and achievement, we must ensure that students continue to feel safe, nurtured, welcomed, respected and included.

The Peel District School Board’s commitment to providing a supportive and safe environment must be one that changes to meet the needs of students, respects differences, and provides opportunities for all students to succeed. Learning and working environments must be free of negative factors such as abuse, bullying, harassment, discrimination, intimidation, hateful words and actions, and physical violence in any form. They must also be sensitive to the diversity, cultural and special needs of individual students. They must clearly demonstrate respect for social justice and human rights, and promote the values needed to develop responsible members of a democratic society.

This shall be achieved by establishing and maintaining high expectations for behaviour, while offering a program that emphasizes early, ongoing and proactive positive and restorative practices, including promoting healthy relationships, mentorship programs, student leadership, direct skill development, early and ongoing intervention, bullying prevention and intervention, conflict prevention and intervention, character development and education, counseling and the inclusion of social skills in the curriculum. The Peel District School Board also supports the use of a continuum of developmentally appropriate progressive discipline strategies, including suspension and expulsion where necessary, as corrective, supportive consequences for inappropriate behaviour.

This policy is aligned with and supports the principles and expectations of the Board’s Human Rights policy (Policy #51) and the Equity and Inclusive Education policy (Policy #54). At all times, this policy should be interpreted to be consistent with the Board’s policies and the Human Rights Code.

The Safe Schools policy is also aligned with and supports the principles and expectations of the Board’s Digital Citizenship policy (#78), which defines the norms of responsible behavior related to the appropriate use of technology, as outlined in each school’s Code of Conduct.

The Safe Schools Policy authorizes the creation of procedures for implementation, which might include issues described in Ministry of Education Policy Program Memoranda as matters of policy. Any such procedures shall be considered guidelines pursuant to the Education Act and other relevant and/or related Ministry of Education materials and sufficient for the purposes of implementing the requirements of Ministry of Education Policy Program Memoranda.
The Safe Schools Policy is divided into six sections:

A. Peel District School Board Code of Conduct
B. Progressive Discipline
C. Bullying Prevention and Intervention
D. Access to School Premises
E. Opening and Closing Exercises
F. Appropriate Dress

A. Peel District School Board Code of Conduct

The Ontario Code of Conduct, Peel District School Board Code of Conduct and the Education Act set clear provincial standards of behaviour and outline potential consequences for student actions that do not comply with these standards. Reference to the Ontario Code of Conduct is made in s.301 of the Education Act. As stipulated in the Ministry document PPM 128, certain parts of the Ontario Code of Conduct have been included in the Peel District School Board Code of Conduct.

Students, parents or guardians, volunteers, teachers, other staff members, Board members, permit holders and visitors are included in the Code of Conduct, whether they are on Peel District School Board property, on school buses, at school-authorized events or activities, or in circumstances where engaging in an activity will have a negative impact on the school climate.

Guiding Principles

- The Peel District School Board is committed to developing a culture of non-violence in all schools and work locations. Every effort will be made to:
  - eliminate the incidence of violence;
  - prepare students to manage their lives and relationships in constructive and respectful ways;
  - provide a prompt and appropriate response to violent and other inappropriate actions that threaten the safety and security of the school community; and
  - ensure that there are serious consequences for any student who commits a violent act.
- All members of the school community (including people in positions of authority), are to be treated with respect and dignity. All community members are expected to role model the Board’s Character Attributes: caring, respect, cooperation, responsibility, honesty and inclusion.
- Responsible citizenship involves appropriate participation in the civic life of the school community. Active and engaged citizens are aware of their rights but, more importantly, they accept responsibility for protecting their rights and the rights of others.
• Members of the school community are expected to encourage the use of constructive and respectful means to resolve conflict. Physically aggressive behaviour is not a responsible way to interact with others.

• Responsible citizenship includes digital citizenship. All members of the school community need to learn to use technology effectively and respectfully.

• Members of the school community are not to be in possession of, or are not to use or threaten the use of any object to injure another person as this endangers the safety of oneself and others.

• Schools will work cooperatively with police and community agencies to promote prevention strategies. The school will respond to school members who are in possession of, or under the influence of, alcohol or restricted drugs.

• Insults, disrespect and other hurtful acts disrupt learning and teaching in a school community. Members of the school community have a responsibility to maintain an environment where conflict and differences can be addressed in a manner characterized by respect and civility. The use of Progressive Discipline and Restorative Practices helps to create safe and inclusive learning environments.

• Schools have a responsibility to promote and enhance positive self-esteem in students through their programs and practices.

• Each behavioural situation that requires disciplinary action has its own unique and varying set of extenuating circumstances. These situations must be handled in a fair and dignified manner that takes into consideration the individual student, the nature and severity of the behaviour, the safety and dignity of all students, the impact on school climate, any mitigating and other factors, and is sensitive to the diversity, cultural and special needs of the individuals involved.

• The Peel District School Board promotes student success by providing all students, including suspended and expelled students, access to continuous learning opportunities and, where appropriate, to the support they need to meet their learning objectives.

• The Peel District School Board is committed to recruiting and retaining staff members who are willing and able to operate within Board policy and within the authority of the Education Act.

• The Peel District School Board is committed to staff development and training to achieve the goals of this policy.

Many aspects of society contribute to the development of values, attitudes and behaviours. The Peel District School Board fully recognizes that it shares responsibility within society to develop respect for social justice and human rights. The Peel District School Board is committed to forming cooperative working relationships with the whole community, including students, staff members, parents and guardians, school councils, community agencies, businesses, and labour and other groups to establish and maintain safe learning and working environments for all.

- The recognition of positive student behaviour, academic achievement and participation in co-curricular activities provides a foundation for the social, emotional and physical health and well-being of students.

- All members of the school community deserve recognition.

- Opportunities for the development of leadership skills enable students, staff members, parents and school council members to develop confidence and experience a sense of pride for the school environment.
5. **To assist students in the development and practice of honesty and integrity.**

- Honesty in personal behaviour and in academic activities is critical to the development of a lifelong and enduring value system.
- Character development must be taught and modeled explicitly to be understood and internalized.

6. **To promote open and honest communication among all members of the school community.**

- Open and ongoing communication encourages mutual understanding within the school community and helps identify priorities to be included in the planning for school success.
- Translation is important to ensuring that all members of the learning community feel included. Every effort will be made to ensure that, as often as possible, communication materials are translated into the languages spoken by members of the school community.

7. **To assist students in the development of self-control and self-discipline.**

- Parents, schools and the community share responsibility for:
  - assisting students to manage their lives and relationships in constructive and respectful ways
  - enabling students to develop the knowledge, skills and attitudes necessary to prevent violence and to deal with violent and potentially violent situations
- Violence, harassment, verbal, physical or sexual abuse, bullying, threatening, unethical use of technology, hate-related behaviour and language, gang-related activities, vandalism, intimidation, extortion, and discrimination on the basis of race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor.
- Any student who demonstrates behaviour inconsistent with Peel District School Board policy or the school Code of Conduct will face a range of age and developmentally appropriate interventions, supports and consequences, based on a progressive discipline approach and consideration of mitigating and other factors, which may include peer mentoring, direct skill development, counseling, loss of privileges, detention, community service, participation in a restorative conference, making restitution, suspension from school or expulsion from any school in the Peel District School Board.
- Any staff member who violates Peel District School Board policy may be subject to consequences, pursuant to the Peel District School Board’s Human Resources policies and procedures.
8. **To assist staff members to acquire the knowledge, skills and values necessary to establish and maintain a safe, nurturing, welcoming, respectful and inclusive climate for learning and working.**

- Staff development begins at the recruitment level with the hiring of staff members whose philosophy and values align with those of the Peel District School Board.

B. PROGRESSIVE DISCIPLINE

Interventions, supports and consequences

To create a safe, nurturing, welcoming, respectful and inclusive climate for learning and working, the Peel District School Board promotes the use of early, ongoing and proactive positive and restorative practices, as outlined in the Safe Schools Procedures, to encourage and support appropriate student behaviours.

The Provincial Code of Conduct, the Peel District School Board Code of Conduct, the Education Act, Ontario Regulation 472/07, Policy Program Memorandum (PPM) 128 (Provincial and school board codes of conduct), 141 (programs for long term suspension), 142 (expulsion programs), 145 (progressive discipline) Bill 13 (the Accepting Schools Act), and the Board’s Digital Citizenship policy (#78), together with the Board’s discipline policies and procedures and school’s Code of Conduct, create expectations for behaviour for all persons on school property, and outline strategies to be taken to reduce incidents and impose appropriate consequences for pupils. The Human Rights Code of Ontario has primacy over provincial legislation and school board policies and procedures, such that the Education Act, regulations, Ministry of Education Program Policy Memoranda, and Board policies and procedures are subject to, and shall be interpreted and applied in accordance with the Human Rights Code of Ontario.

Progressive discipline is an approach that makes use of a continuum of prevention programs, preventative actions, interventions, supports and consequences, building upon strategies that promote positive behaviours. When things go wrong, one is expected to accept responsibility and repair the harm in an environment where everyone is supported and treated with integrity and respect. The range of interventions, supports, and consequences used by the Peel District School Board and all schools must be clear and developmentally appropriate, and must include learning opportunities for students in order to reinforce positive behaviours and help students succeed. For students with special education and/or disability related needs, interventions, supports and consequences must be consistent with the expectations in the student’s Individualized Education Plan (IEP) and/or his/her demonstrated abilities.

The Peel District School Board recognizes that, in some circumstances, positive practices might not be effective or sufficient to address inappropriate student behaviour. In such circumstances, the Peel District School Board supports the use of a continuum of developmentally appropriate
progressive discipline strategies, including suspension and expulsion where necessary, consistent with Ministry of Education direction and PPM 145.

Student disciplinary measures should have learning consequences wherein the student is supported to make good choices in the future, is able to restore relationships and repair hurt and harm caused. Schools should utilize a range of restorative interventions, supports and consequences that are not punitive but both corrective and supportive.

The Peel District School Board does not support the use of exclusion of students pursuant to section 265(1)(m) of the Education Act as a means of discipline, but recognizes that to maintain the physical and/or mental well-being of students in a class or in the school, exclusion of a student may be necessary, in which case the exclusion will be communicated to the parent/guardian or adult student in accordance with Peel District School Board procedures, including the right to appeal the exclusion to the Trustees of the Peel District School Board, as set out in Peel District School Board procedures.

The Peel District School Board also supports the use of suspension and expulsion when a student has committed one or more of the infractions outlined in the Safe Schools Procedures on Peel District School Board property, during a school-related activity or event, and/or in circumstances where the infraction will have a negative impact on the school climate.

In all cases where consequences might be imposed, teachers, administrators and the Peel District School Board will be sensitive to the diversity, cultural and special needs of all individuals involved and shall take into account the individual student, the nature and severity of the behaviour, the safety and dignity of all students, the impact on school climate, and the circumstances, including any mitigating or other factors, as outlined in the Safe Schools Procedures and consistent with Ontario Regulation 472/07. Before applying disciplinary measures, the principal/designate and Discipline Committee of the Board shall consider the discriminatory impacts of disciplinary decisions on pupils protected by the Human Rights Code, including but not limited to race and disability, and whether or not accommodation is required.

The Peel District School Board is committed to providing suspended and expelled students with an opportunity to continue their education by providing an educational program, consistent with PPM 141 and PPM 142, and the support that these students need to meet their learning objectives.

The Peel District School Board supports the application and enforcement of the Code of Conduct, Standards of Behaviour and Student Expectations for suspended and expelled students participating in an alternative program consistent with PPM 141 and PPM 142. The enforcement of the Code of Conduct, Standards of Behaviour and/or Student Expectations for suspended and expelled students can include modification of that student’s participation in the alternative program.

Pursuant to the Education Act, principals are required to maintain proper order and discipline in schools, and students are responsible to the principal for their conduct and are required to accept such discipline as would be exercised by a reasonable, kind, firm and judicious parent. A principal may delegate some disciplinary responsibilities to a vice-principal and/or teacher of the school in accordance with the Education Act, Ministry of Education policies and Board procedures. In such circumstances, the delegation of authority and the authority delegated shall
be clearly identified in Peel District School Board procedures, as shall the supports available to individuals in receipt of the delegated authority.

To meet the goal of creating a safe, nurturing, and accepting school environment, the Peel District School Board supports the use of early, ongoing and proactive positive and restorative practices, as well as consequences for inappropriate behaviour, including progressive discipline, which includes suspension and expulsion, where necessary. The Board considers bullying, sexual assault, incidents based on homophobia, transphobia, biphobia, gender-based violence, and harassment on the basis of race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor and/or any other immutable characteristic or ground protected by the Human Rights Code, as well as inappropriate sexual behavior, unacceptable. The Board supports the use of positive practices to prevent such behaviour and authorizes principals, or their delegates, to impose consequences in appropriate circumstances, up to and including a referral to the Discipline Committee of the Board for expulsion from all schools.

This policy authorizes the use of progressive discipline practices.

Positive practices

In order to promote and support appropriate and positive student behaviours that contribute to creating and sustaining safe, nurturing, welcoming, respectful and inclusive learning and working environments that encourage and support students to achieve to the best of their ability, the Peel District School Board supports the use of positive practices for: (1) prevention, and (2) positive behaviour management. The Board also encourages principals/designates to review and amend, as appropriate, Individual Education Plans, Behaviour Management Plans and Safety Plans at regular intervals and following an incident, to ensure that every student with disability related needs is receiving appropriate accommodation up to the point of undue hardship.

Preventative practices include:

- Human Rights strategies pursuant to PPM 119;
- anti-bullying and violence prevention programs;
- mentorship programs;
- student success strategies;
- character development and education;
- citizenship development;
- restorative practices;
- student leadership; and
- promoting healthy relationships and lifestyles.
Positive behaviour management practices include:

- program modifications or accommodations;
- class placement;
- positive encouragement and reinforcement;
- restorative practices;
- individual, peer and group counseling;
- conflict resolution;
- mentorship programs;
- promotion of healthy student relationships;
- sensitivity programs;
- safety plans;
- school, Peel District School Board and community support programs;
- student success strategies; and
- early and ongoing interventions.

The Peel District School Board recognizes that, in some circumstances, positive practices might not be effective or sufficient to address inappropriate student behaviour. In such circumstances, the Peel District School Board supports the use of consequences.

In circumstances where a student will receive a consequence for his/her behaviour, it is the expectation of the Peel District School Board that progressive discipline practices, consistent with the Human Rights Code, Ministry of Education direction and PPM 145, will be applied, if appropriate.

**Progressive Discipline Consequences**

The goal of this policy, with respect to progressive discipline, is to support a safe learning and working environment in which every student can achieve to the best of his/her ability.

Appropriate action must consistently be taken by schools to address behaviours that are contrary to provincial, Peel District School Board and school codes of conduct, which includes, but is not limited to, sexual assault, gender-based violence, incidents based on homophobia, transphobia or biphobia, and bullying or harassment on the basis of race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor and/or any other immutable characteristic or ground protected by the Human Rights Code.

It is the expectation of the Board that, provided that there is no immediate risk of physical harm to any individual, staff members who work directly with students on a regular basis, including administrators, teachers, teaching assistants, social workers, child and youth workers, psychologists, and speech and language pathologists, shall, in accordance with Board procedures, respond to any such inappropriate and disrespectful behaviour or any other
behaviour that causes a negative school climate or for which a suspension or expulsion may be imposed, which they have observed or heard during the course of their duties or otherwise while on school property or during a school related event.

The Peel District School Board, and school administrators, must consider all mitigating and other factors, as required by the Human Rights Code, the Education Act and as set out in Ontario Regulation 472/07 before imposing progressive discipline consequences.

When implementing progressive discipline practices, the Peel District School Board must:

- require schools to develop and implement a progressive discipline policy consistent with the Board's Safe Schools policy;
- outline a range of early and ongoing interventions, supports and consequences;
- require schools to use the most appropriate response in accordance with Peel District School Board policy and applicable collective agreements;
- develop a process to build on and develop new partnerships with community agencies and local police;
- provide opportunities for ongoing parent dialogue; and
- provide leadership opportunities for students.

Progressive discipline practices may include early and/or ongoing intervention strategies, such as:

- anti-bullying and violence prevention programs;
- review of expectations and specific skills development;
- oral reminders;
- written work assignment with a learning component;
- contact with the student’s parent(s)/guardian(s);
- peer mentoring;
- consultation with board resources;
- volunteer service to the school community;
- restorative practices
- conflict mediation and resolution; and
- referral to counselling.

Progressive discipline practices may also include a range of interventions, supports and consequences when inappropriate behaviours have occurred, with a focus on improving behaviour, such as one or more of the following:

- withdrawal of privileges;
- detentions;
• withdrawal from class;
• meeting with the student, the student’s parent(s)/guardian(s) and the principal;
• restorative practices;
• restitution for damages;
• referral to a community agency for counselling, such as conflict resolution, anger management or substance abuse; and/or
• the use of suspension and expulsion as outlined in Part XIII of the Education Act, where a student has committed one or more of the infractions outlined below on school property, school buses, during a school-related activity or event, and/or in circumstances where the infraction will have a negative impact on the school climate.

Progressive discipline is most effective when dialogue between the school and home regarding student achievement, behaviour and expectations, is open, courteous and focused on student success. When addressing inappropriate behaviour, school staff should consider the particular student and circumstances, including any mitigating and other factors as set out Regulation 472/07, the nature and severity of the behaviour, and the impact on the school climate.

Suspension

The infractions for which a suspension may be considered by the principal include:

1. uttering a threat to inflict serious bodily harm on another person;
2. possessing alcohol or restricted drugs;
3. being under the influence of alcohol;
4. swearing at a teacher or at another person in a position of authority;
5. committing an act of vandalism that causes extensive damage to school property at the student’s school or to property located on the premises of the student’s school;
6. bullying;
7. any act considered by the principal to be detrimental to the moral tone of the school;

Any such infractions for which a student may be suspended or expelled about which a board staff member or transportation provider becomes aware must be reported to the principal or designate in accordance with Peel District School Board procedures at the earliest, safe opportunity and no later than the end of the school day, or end of a transportation run, if reported by a transportation provider. A written report in accordance with Peel District School Board procedures must be made when it is safe to do so.

The principal or designate is required to provide information, in accordance with Board procedures, to the parent/guardian of a pupil except where the principal is aware that informing the parent/guardian would put the pupil at risk of harm and would not be in the pupil’s best interests.

**Mitigating and Other Factors**

Before imposing a suspension, the principal, as required by the Education Act, must consider any mitigating and other factors and their application for the purpose of mitigating the discipline to be imposed on the pupil. For the purpose of the Safe Schools Policy and Procedures, the Peel District School Board interprets the provisions of the *Education Act* and Regulations in a broad and liberal manner consistent with the *Human Rights Code*.

The principal or designate shall consider whether or not the discipline will have a disproportionate impact on a pupil protected by the *Human Rights Code* and/or exacerbate the pupil’s disadvantaged position in society.

**Mitigating Factors**

The mitigating factors to be considered by the principal are:

1. Whether the pupil has the ability to control his or her behaviour;

2. Whether the pupil has the ability to understand the foreseeable consequences of his or her behaviour; and

3. Whether the pupil’s continuing presence in the school does or does not create an unacceptable risk to the safety of any other individual at the school.

**Other Factors to be Considered**

1. The pupil’s academic, discipline and personal history;

2. Whether other progressive discipline has been attempted with the pupil, and if so, the progressive discipline approach(es) that has/have been attempted and any success or failure;
3. Whether the infraction for which the pupil might be disciplined was related to any harassment of the pupil because of race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor;

4. The impact of the discipline on the pupil’s prospects for further education;

5. The pupil’s age;

6. Where the pupil has an IEP or disability related needs,
   a) Whether the behaviour causing the incident was a manifestation of the pupil’s disability;
   b) Whether appropriate individualized accommodation has been provided; and
   c) Whether a suspension is likely to result in aggravating or worsening the pupil’s behaviour or conduct or whether a suspension is likely to result in a greater likelihood of further inappropriate conduct; and

7. Whether or not the pupil’s continuing presence at the school creates an unacceptable risk to the safety of anyone in the school.

Expulsion

The infractions for which a principal may consider recommending to the Peel District School Board that a student be expelled include:

1. possessing a weapon, including possessing a firearm or knife, (including pocket knives);
2. using a weapon to cause or to threaten bodily harm to another person;
3. committing physical assault on another person that causes bodily harm requiring treatment by a medical practitioner;

5. trafficking in weapons or restricted drugs;
6. committing robbery;
7. giving alcohol to a minor;
8. an act considered by the principal to be significantly detrimental to the moral tone of the school and/or to the physical or mental well-being of others;
9. a pattern of behaviour that is so inappropriate that the student’s continued presence is detrimental to the effective learning and/or working environment of others;
10. activities engaged in by the student on or off school property that cause the student’s continuing presence in the school to create an unacceptable risk to the physical or mental well-being of other person(s) in the school or Peel District School Board;
11. activities engaged in by the student on or off school property that have caused extensive damage to the property of the Peel District School Board or to goods that are/were on Board property;

12. any act considered by the principal to be a serious breach of the expectations for student behaviour and/or a serious violation of the Peel District School Board or school Code of Conduct;

13. where a student has no history of discipline or behaviour intervention, or no relevant history, a single act, incident or infraction considered by the principal to be a serious breach of the expectations of student behaviour and/or a serious violation of the Peel District School Board or school Code of Conduct; and/or

14. any activity that is motivated by bias, prejudice or hate based on race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor.

The principal and/or Discipline Committee of the Board shall consider whether or not the discipline will have a disproportionate impact on a pupil protected by the Human Rights Code and/or exacerbate the pupil’s disadvantaged position in society.

Any such infractions about which a board staff member or transportation provider becomes aware must be reported to the principal or designate in accordance with Peel District School Board procedures at the earliest, safe opportunity and no later than the end of the school day, or end of a transportation run, if reported by a transportation provider. A written report in accordance with Peel District School Board procedures must be made when it is safe to do so.

The principal or designate is required to provide information, in accordance with Board procedures, to the parent/guardian of a pupil except where the principal is aware that informing the parent/guardian would put the pupil at risk of harm and would not be in the pupil’s best interests.

Mitigating Factors and Other Factors

Before imposing a suspension pending an investigation to determine whether to recommend expulsion, the principal must consider any mitigating and other factors outlined above, for the purpose of mitigating the discipline to be imposed on the pupil. For the purpose of the Student Discipline Policy and Procedures, the Board interprets the provisions of the Education Act and Regulations in a broad and liberal manner consistent with the Human Rights Code. The principal and/or Discipline Committee of the Board shall consider whether or not the discipline will have a disproportionate impact on a pupil protected by the Human Rights Code and/or exacerbate the pupil’s disadvantaged position in society.

If the principal imposes a suspension pending an investigation to determine whether to recommend expulsion, the principal must consider any mitigating and other factors as set out above and in the Safe Schools Procedures, for the purpose of mitigation when determining whether to recommend an expulsion, and, if no expulsion is recommended, when deciding whether to shorten the length of the suspension.
For the purpose of the Safe Schools Policy and Procedures, the Peel District School Board interprets the provisions of the *Education Act* and Regulations in a broad manner consistent with the *Human Rights Code*.

**Principal Investigation**

Before recommending an expulsion, the principal must complete an investigation, as required by the Education Act, which is consistent with the expectation of the *Human Rights Code* and the expectations for principal investigations outlined in the Peel District School Board’s Safe Schools Procedures.

**Victims of Serious Student Incidents**

The Board supports pupils who are victims of serious incidents of pupil behaviour causing harm contrary to the provincial, Board, and school Codes of Conduct. The principal or designate is required to provide information, in accordance with Board procedures, to the parent/guardian of a pupil except where the principal is aware that informing the parent/guardian would put the pupil at risk of harm and would not be in the pupil’s best interests. The Board shall develop appropriate plans to protect the victim and will communicate those plans to the victim and the parents/guardians of victims.

**Appeal**

Where a student’s parent/guardian or the student, if 18 or older or 16 or 17 and has removed him/herself from parental control, disagrees with the decision of a principal to suspend the student, that student’s parent/guardian or the student, if 18 or older or 16 or 17 and removed from parental control, may appeal the principal’s decision to suspend the student, in accordance with the *Human Rights Code*, the Peel District School Board’s Safe Schools Procedures and Suspension Appeal Guidelines.

Suspension appeals will not be conducted in accordance with or be subject to the *Statutory Powers Procedure Act*.

The adult student or the student’s parent/guardian may appeal a Peel District School Board decision to expel the student to a tribunal designated to hear and determine appeals of School Board decisions to expel students. The tribunal’s decision is final.

**Superintendent Responsible for Student Discipline**

The Superintendent of Staff Development and School Support Services shall have the procedural powers and duties outlined in the Safe Schools Procedures.

**Discipline Committee**

The Peel District School Board authorizes the creation of a Discipline Committee of no fewer than three (3) Trustees to decide appeals of principal suspensions and principal recommendations for expulsion. For these purposes, the Discipline Committee may conduct the suspension appeals and expulsion hearings. The Peel District School Board or Discipline
Committee shall conduct suspension appeals and expulsion hearings in accordance with the Safe Schools Procedures, Suspension Appeal Guidelines, Expulsion Hearing Guidelines and Rules.

In all cases where consequences might be imposed, teachers, administrators and the Peel District School Board will consider the safety and dignity of all students, and the impact of the incident on the school climate.

The Discipline Committee shall have the powers as set out in the Education Act and any other powers necessary and shall consider the Human Rights Code prior to implementing any appropriate order.

The Discipline Committee may expel a student from a school or all schools of the Board as a result of his/her involvement in a single act, a single incident or a single infraction where, in the opinion of the Discipline Committee, the student's behaviour was a serious breach of the expectations of student behaviour and/or a serious breach of the Peel District School Board or school Code of Conduct.

**Alternative programming**

Suspended and expelled students shall have the opportunity to continue their education, as required by the Education Act and consistent with PPM 141 and PPM 142. For students with special education and/or disability related needs, appropriate support shall be provided, consistent with the expectations in the student’s IEP and/or his or her demonstrated abilities.

The Peel District School Board shall actively encourage, but cannot compel, expelled students and students on long-term suspensions to participate in the Board’s alternative programming. Expelled students may be readmitted to school if they complete the Peel District School Board program or satisfy the objectives of the program.

Students who commit an infraction while attending an alternative program for suspended or expelled students, as a consequence, can have their program modified to make it longer in duration and/or to withdraw some or all of the programming and/or services or can be referred for an expulsion, depending upon the nature and severity of the infraction committed and giving consideration to the mitigating and other factors.

**Training**

The Peel District School Board will implement a training strategy for administrators, teachers and other school staff that:

- emphasizes that all staff have a responsibility in building a supportive learning and working environment;
- increases awareness and educates others in the school community about the Peel District School Board’s progressive discipline practices; and
- recognizes the need to support ongoing teacher and administrator training.
C. BULLYING PREVENTION AND INTERVENTION

Statement of policy

The Peel District School Board is committed to providing a safe, nurturing, welcoming, respectful, inclusive and accepting climate for learning and working, where all members of the school community are treated with respect and dignity, and where positive, co-operative relationships are encouraged and diversity is appreciated.

The Peel District School Board recognizes that bullying adversely affects the learning and working environment, disrupting students’ ability to learn and the school’s ability to educate its students. Bullying also adversely affects the development of healthy, inclusive relationships, and the school climate.

All members of the school community have a responsibility to maintain a school environment where conflict and differences can be addressed with respect and civility. Bullying will not be accepted on Peel District School Board property, school buses, at school-related activities, through electronic media (cyber-bullying), or in any other circumstances where engaging in bullying will have a negative impact on the school climate.

The Provincial Code of Conduct, the Peel District School Board Code of Conduct, the Education Act, Ontario Regulation 472/07, Policy Program Memorandum (PPM) 144 (bullying prevention) Bill 13, and the Board’s Digital Citizenship policy (#78), together with the Board’s discipline policies and procedures and school’s Code of Conduct, create expectations for behaviour for all persons on school property, and outline strategies to be taken to reduce incidents and impose appropriate consequences for pupils. The Human Rights Code of Ontario has primacy over provincial legislation and school board policies and procedures, such that the Education Act, regulations, Ministry of Education Program Policy Memoranda, and Board policies and procedures are subject to, and shall be interpreted and applied in accordance with the Human Rights Code of Ontario when addressing issues of discipline with respect to bullying.

Definition of bullying

Bullying is typically a form of repeated, persistent and aggressive behaviour directed at an individual or individuals that is intended to cause (or should be known to cause) harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual’s reputation or harm to the individual’s property, or create a negative environment at a school for another individual. Bullying occurs in a context where there is a real or perceived power imbalance.

Bullying may be based on factors such as race, place of origin, ethnicity, language, ancestry, colour, faith, religion, gender, gender identity, gender expression, sexual orientation, size, strength, age, peer group power, socioeconomic status, family circumstances, ability, intelligence, receipt of special education or any other similar factor and/or any other immutable characteristic or ground protected by the Human Rights Code, and despite the truthfulness and/or applicability of the immutable characteristic or ground.

Bullying may include the use of any physical, verbal, social, electronic, written or other means.

7. The Peel District School Board shall develop procedures to allow staff and students to report bullying incidents easily, safely, anonymously and without fear of reprisal.

8. Code for Formal Student Dress or School Uniform

The principal, in consultation with the school council, may initiate the process of establishing a Code for Formal Student Dress or School Uniform at an elementary or secondary school.

The following process must be followed:

1. Principals will consult with the School Council, School Staff, Student Association, Trustees and the Superintendent of Education.

2. The Superintendent of Education will consult with the Director of Communications and Community Relations to ensure the process meets Board Policy, is supported by a comprehensive communications plan, and is reviewed by the Director’s Office.

3. If there is not sufficient interest, no further action will be taken during that school year.

4. If the process indicates that interest does exist in establishing a Code for Formal Student Dress or School Uniform, a representative committee, including parents or guardians, staff members, students and school administration, will be established.
5. The purpose of this committee will be to:
   • consider implications of introducing a Code for Formal Student Dress or School Uniform, including affordability;
   • develop an action plan; and
   • determine whether the adoption of a Code for Formal Student Dress or School Uniform is supported by 75% of the those voting as long as the total vote represents 75% of the families enrolled at the school. The voting does not include outgoing grade 12 students, but does include incoming grade 9 students.

6. The action plan must include the following:
   • process for data collection;
   • communication plan;
   • clear voting procedures;
   • a strategy to deal with affordability;
   • an implementation timeline;
   • an understanding that implementation is premised by compliance;
   • a process for the acquisition of apparel, if necessary; and
   • a review and monitoring process, which parallels the same process that led to the decision to adopt the Code for Formal Student Dress or School uniform.

7. The school council will share the information gathered with the school community, including a description of the proposed change.

8. If the decision-making process meets the minimum standard of 75% of the families voting, as long as 75% of families enrolled in the school vote, the school will implement a Code for Formal Student Dress or School Uniform as outlined in the action plan.

9. If a mandatory uniform is approved at the school, a student contract will be signed agreeing to wear the uniform daily and an alternate school will be offered to students/families who do not wish to sign the contract. Busing will not be provided to the alternate school.

10. If the decision-making process does not meet the minimum standard of 75% approval with 75% voting, the issue will not be studied for a period of three (3) years.
