### More about Harold M. Brathwaite:

Harold M. Brathwaite Secondary School is an active school community with a wide variety of programs and high academic standards. Our mission is to be a community of active learners and engaged citizens in which all members are intellectually curious, globally and socially responsible, with a commitment to wellness. The school supports students in their chosen pathways by providing a positive climate for learning based on mutual respect, hard work, perseverance, character development, and excellent academic achievement. Staff and students work together to be successful by developing and improving their learning skills, using technology to enhance their learning experience, and being engaged and attending all classes.

We are an International Baccalaureate (IB) World School. We offer a pre-IB program to those students who are successful in the application process.

The Business SHSM focuses on Business Leadership and appeals to students who are thinking about starting their own business or pursuing studies in business related careers. The Justice, Community Safety and Emergency Services SHSM offers a specialized program in Justice Education which focuses on the Canadian Legal System and appeals to students thinking about becoming lawyers, paralegals, police officers and a wide variety of other law-related careers.

The EHS program is a pre-SHSM program which will prepare students for either SHSM program in grade 11 and 12. Students will earn certifications that will assist them in their first volunteer opportunities, give them skills for their first part-time jobs, and give them an edge in their post-secondary plans. Students must apply to this program while in Grade 8.

Harold Brathwaite is an International School, with students from around the world attending and working towards their OSSD. With more than 60 students studying at HB on an annual basis, international students join our learning community to learn, share and engage in our school life. HB is also home to our S.U.C.C.E.S.S. program, which supports students with a range of learning exceptionalities. This comprehensive program provides support for students and offers opportunities for individuals to flourish and engage in activities throughout the school.
